PROFILE

I am Angelica S. Bañas, 18 years old. I am 17 years old. A Bachelor of Science in Information Technology Students at Cavite State University-Silang Campus. I started programming in 2020. Before entering Senior Highschool, I don't have any programming knowledge.

I have only created a few programming projects, but thankfully all of those projects are a success. I try to re-create my version of some kids games as a hobby. I also do digital art in my past time when I don't have anything to do or if I am stressed out.
